

PRESS RELEASE FOR MATHS EXHIBITION

HELD AT SHIVALIK PUBLIC SCHOOL, PATIALA

To motivate and assess the abstract ability of students, a Mathematics exhibition was conducted at Shivalik Public School, Patiala. The students from classes III to IX participated with full zeal and enthusiasm. They presented conceptual explanations to different perceptions of Mathematics used in daily life through working as well as non working models. Some of the various models which got appreciation included Solid Shapes presented by Aval of class III, Divisibility Rule by Khushpreet of class V and Roman Numerals presented by Jival of class III. In Second Category, Damanjot of class VIII, Karuna and Gurleen of class VII and Shubham and Bhavnish of of Class VI bagged positions for presentation on topics Method of Tables, Moving and Transforming Shapes and Angle Sum property of a Triangle. In third Category for students of Class IX, model on Pythagoras Theorem and Congruency of Triangles presented by Madahv, Manmohan and Kavya was adjudged to be at first position, Model on Number System by Parneet and Gursimar was declared second and presentation on Life Stories of Great Mathematicians by Sneha and Harjot won Third position. All the participants felt really motivated and joyous after appreciation by Madam Principal.
