

## DEMONSTRATION PROGRAM

“Our kindergarten students recently participated in a memorable demonstration program, where they showcased their growing confidence and abilities by performing in front of proud parents. The event began with prayers, followed by a calming yoga session that helped the children focus and set a positive tone. The program continued with interactive storytelling using creative props, capturing the imagination of everyone present.

Students demonstrated their learning through engaging rhymes and topics from Math, Hindi, and Environmental Studies (EVS), highlighting their understanding and enthusiasm for these subjects. A slate activity for dictation was also included, where students showcased their writing skills with impressive accuracy.

The children further delighted the audience with their creativity through a hands-on craft activity, and their vibrant dance performance brought the event to a joyful close. The parents were thrilled and deeply touched to see their children overcome stage fear, speaking and performing confidently, making the event an unforgettable experience for all.”
